

Breast Cancer Detection

Kainat Fatima, Ali Sher
Artificial Intelligence
Sir Siraj Munir

MILESTONE 3

Our plan was to start after midterms, We have gathered the data.csv file meanwhile studying of Logistic regression after that we will learn the Random Forest and Decision Tree in upcoming week, and will then apply our models . For now we have been Analyzing and also normalizing the data ,Visualize with the help of panda libraries as per our timeline.

We are using the online tool <https://colab.research.google.com/> for our project.
